

Cut Glass Candy

4 cups sugar
1 cup water
1 cup Karo

This is fun to make with and for family and friends, plus your whole house will smell like cinnamon!

Heat these three ingredients to 300°, add:

1 tsp. cinnamon oil (this is found in most pharmacy areas)

¼ teaspoon red food color (this will smell strong, so keep well ventilated)

Pour hot mixture onto 2 pizza pans that have been packed with a thick layer of powdered sugar; then top with a little more powdered sugar. Cool completely, then break into pieces. You can substitute pizza pans with heart shaped candy molds for your special Valentine!
